Observed rainfall anomaly during the month of April 2022

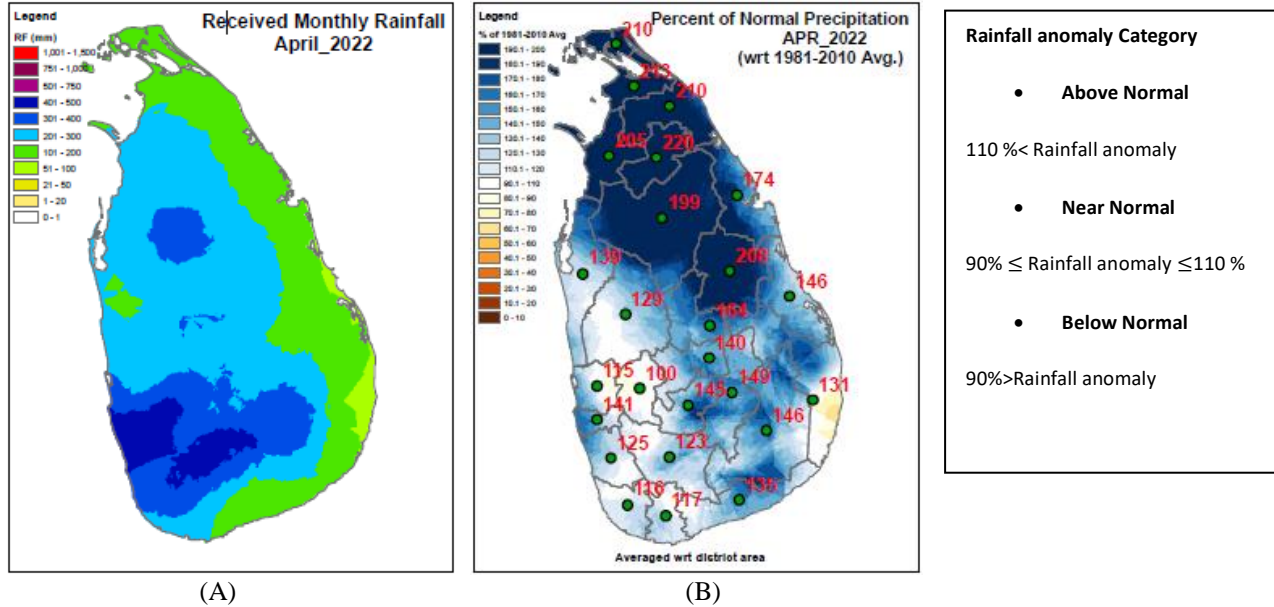

Fig 4: Observed rainfall during month of April 2022

According to the available rainfall data in the Department of Meteorology, above normal rainfalls were reported over most parts of the country during the month of April. Northern and North Central provinces received more than twice of normal rainfall during the month. Figure 4(A) shows the observed rainfall and 4(B) shows the observed rainfall anomaly during the month of April 2022.
