Observed rainfall anomaly during the month of July 2022

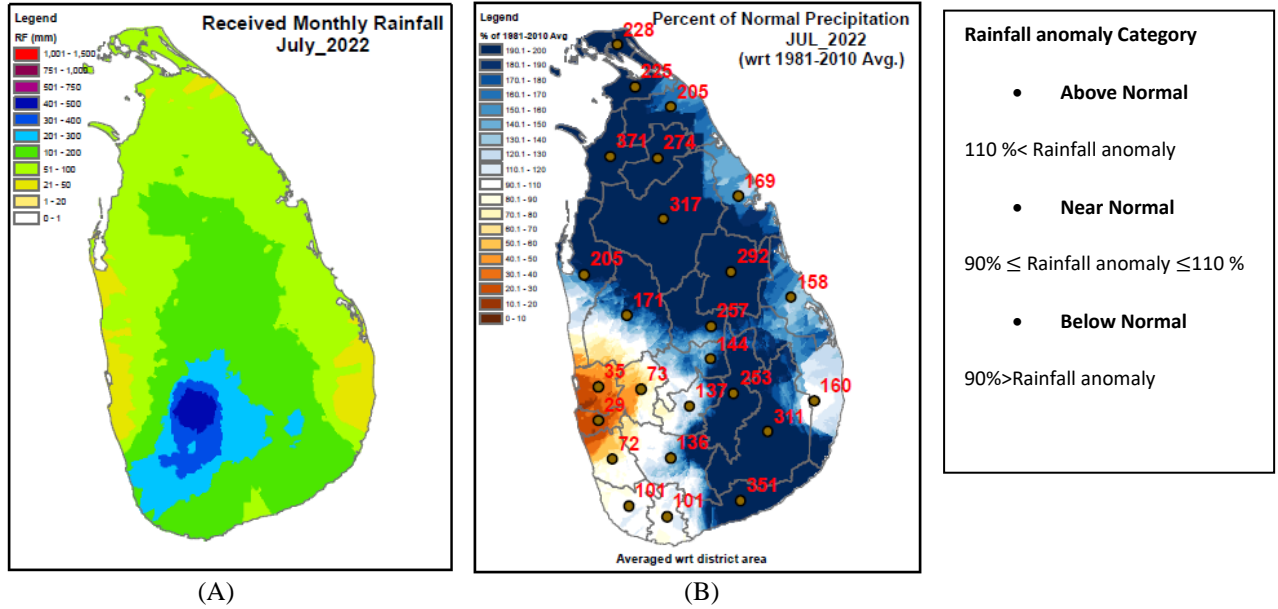

Fig 4: Observed rainfall during month of July 2022

According to the available rainfall data in the Department of Meteorology, below normal rainfalls were reported over Colombo, Gampaha, Kalutara and Kegalle districts and in southern parts of Kurunegala and Puttalam districts. Near or above normal rainfalls were reported over remaining areas of the country during the month. Figure 4(A) shows the observed rainfall and 4(B) shows the observed rainfall anomaly during the month of July 2022.
