## Observed rainfall anomaly during the month of December 2021

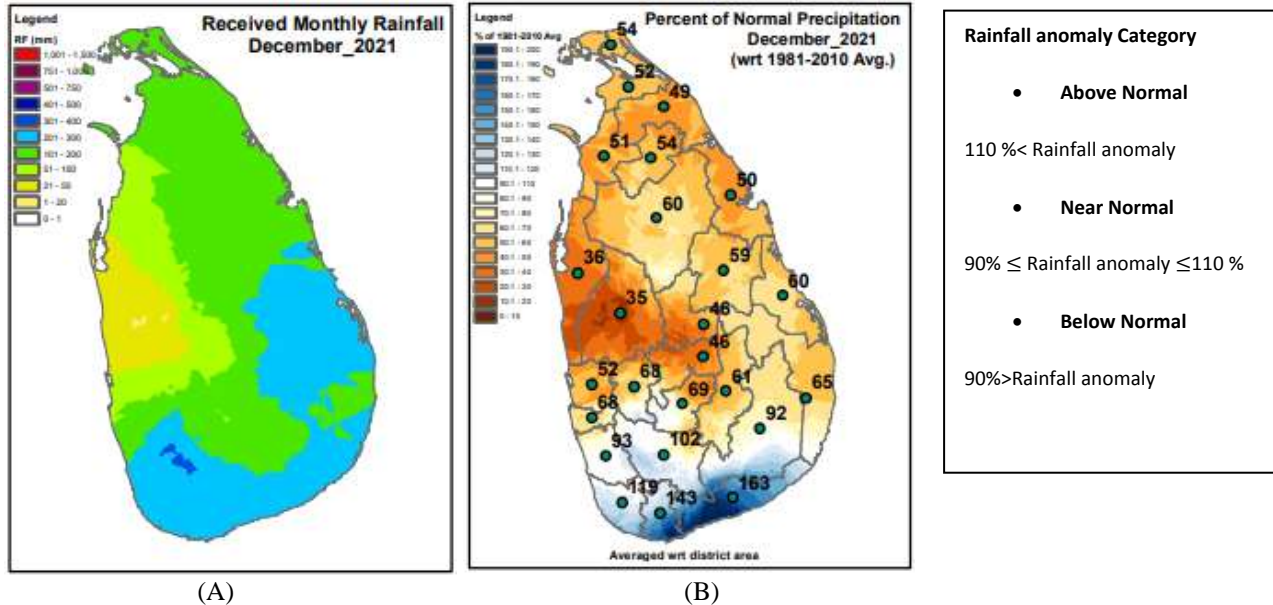

Fig 4: Observed rainfall during month of December 2021

According to the available rainfall data in the Department of Meteorology, near or above normal rainfalls were reported in most of the areas in Kalutara, Galle, Mathara, Rathnapura, Hambantota, and Monaragala districts and in southern half of Kegalle and Nuwara Eliya districts. Below normal rainfalls were reported in remaining areas during the month of December 2021. Figure 4(A) shows the observed rainfall and 4(B) shows the observed rainfall anomaly during the month of December 2021.
